

2019

Stagii pe Bune

In total we've had 14 students and the grand majority brought greater performances than in the past years. **Continually, *Stagii pe Bune* remains especially important to us.** If before we had trouble finding candidates that meet our standards, now we simply don't have the capacity to keep all the people we wish to collaborate with. **This year's generation has left quite the impression on us, especially for the attitude it brought.** We're hoping to offer a few scholarships for the diploma project and keep in touch with them in the future.

Thanks a lot for your support. It was another great year at *Stagii pe Bune*.

Cosmin Stan
Director of Product Management at
Xperi Corporation

ABOUT THE PROGRAMME

Stagii pe Bune promotes internships to students all during the second semester. It ensures not only a great number of applications, but also a powerful brand presence among students.

INCLUDE

- Event stall
- 1 job post included
- Elevator pitch

Individual internship posts

Cost based on number of internships posted.

Over the 13 years of *Stagii pe Bune* we've seen students become reliable teammates, and colleagues become managers.

If you look around the office you'll probably see seniors that were once starting out as interns on *Stagii pe Bune*.

We hope to bring our internship programme to every single university city in Romania, so every student has the chance to reach his max.
